# EAPC

Optimize Learning. Together!

# Today's colleges and universities must address academic excellence as well as student's social and physical well-being

A wide array of classes and specialties is, of course, a necessity, but today's students also increasingly seek a campus with an environment that is aesthetically pleasing and welcoming. Students want first-rate classrooms and laboratories for learning as well as comfortable and modern buildings, with a variety of common areas for meetings, studying, and gathering. Conveniently and strategically located student services such as wellness facilities, academic counseling, and retail, are also highly valued design features. The student experience is a major driving force behind the design.

With EAPC, you get an experienced partner that truly shares your goals for a robust, comprehensive, world class education system.

EAPC est. 1967 | «

## Improving the student experience together

During the past five decades, EAPC has worked on over 385 higher education projects. We have partnered with regional colleges and universities to build, renovate, or expand their facilities to create greater opportunities. Our relationships with this network of institutions is the backbone of our higher education knowledge base. Understanding the current needs and trends of our clients is vital to providing superior design services. We are proud to have worked with many institutions including:

- Bemidji State University
- Bismarck State College
- Dickinson State University
- Lake Region State College
- Mayville State University
- Minot State University
- North Dakota State School of Science
- North Dakota State University
- South Dakota State University
- University of Jamestown
- University of Mary
- University of North Dakota
- University of South Dakota
- Williston State College

## Our team can provide all services to complete your building project.

At EAPC, we offer a full-range of services in architecture, interior design, and engineering (structural, mechanical, electrical, and forensic). Our past experience includes:

- Administrative Buildings
- Athletic Fields and Stadiums
- Boiler | Chiller Replacement
- Central Plant System
- Classrooms
- Collaborative | Interactive Student Spaces
- Commissioning
- Facility Assessments
- Laboratories
- Master Planning
- Parking Ramps and Walkways
